Organiser's Comments:

Thanks to all for coming to the second Autumn Leaves street event. Whilst we set off in day light it soon became dark catching out a few who had forgotten their lights (and someone forgot their running shoes!) . As promised Edwyn had spiced up the scoring and not all controls were equal. The column at the end shows what people would have scored on the old system. As I had seen the map I have declared myself Non comp so Mike Cope came joint first by both methods of scoring biggest loser by the new system was Graham who visited the most controls but came 4th. Linda despite being late back gained the most. Congratulations must go to Alexis and John Whitaker who scored the same as Mike but in a shorter time so are this weeks winners

Number 3 caught a few out as it was not illuminated a reminder that we are visited lamp posts not street lights as I have found out a few times, and I think those who got 10 wrong went up the street not the service road.

The next race will be in two weeks time on Wednesday 15th October from Lascelles Road (behind the Hensmans old house) . We might even be starting in the dark by then so please remember to bring a headtorch as well as your watch and pen.
