Planner's Comments:

Thanks to everyone for turning out on what turned out to be a pleasant evening, unlike when I was checking them in the morning! My experimental format of a few controls with a heavy 50 pt penalty for not visiting them rather changed things round. It appears to have made people think a bit more, which was what I had hoped, but I probably included slightly too much with the 5 chosen. For Control 2, I have allowed both 2 and 3 as I did not know that the light at the end of the alley would not come on and some consciously chose not to venture too far down a rough, unlit alley for safety reasons. I hope you all enjoyed it.
