Wrong:

Organiser's Comments:

A great turn out of thirteen orienteers on a soggy night in Starbeck. Both extremes of the map were visited, although only the Whitaker Wombles were tempted out of town to do the northern loop over the railway bridge.

Control 4 had the unusual lampost number "S58", but this was well hidden under ivy so points have been awarded for question marks on this control.

Many thanks to Richard for all his help with planning.

Vicky Bailey
