Wrong:

Thank you all who came along this evening. It was a good clear night and everyone returned close on time .
Knaresborough has a good number of connected pathways which makes for several route choices.
Only Tim got to all the post boxes which put him ahead in spite of time penalties.

Update to the results: After a review of control 15 on NYCC and visually the lamp is actually is actually 11, but 7 (Junction box) accepted - see photo.
Unfortunately for Tim, Allen just takes the lead based on time; it is home turf!
