Wrong:

The event was based in Ripon City centre where we had excellent hospitality at the Golden Lion pub (2 meals for £12.50!) with a reserved corner in the bar. Good timing by competitors, only 2 minutes from first to last to finish, only 3 people a few seconds over; well done Ruth who judged it well with no watch BUT she did have a pen that wrote in the rain (drizzle really) - 'Sharpie' pen is what is needed in these conditions. Leon Foster visited all the controls but didn't quite manage to record the correct number on all the lampposts but he still won; first lady was Ruth with 25 controls, all correct. Thanks to the 9 competitors who travelled to Ripon on an evening with a poor weather forecast.

David
