Wrong:

Comments:

A full moon.... 16 [mad?] orienteers left the Spa Hotel a few minutes late - Tim took the wrong turn to get there. He also missed the briefing so I have allowed his question mark for the lampposts which had no number. The majority of the high scorers cleaned up on the W side of the map. Some runners had problems with #5 which had number 1 high up near the lamp, also #23 had a few wrong answers - the map does show the control in the side street not the main road. Well done all those orienteers who were gluttons for punishment & ran the Army event at Ellington Banks earlier that day. Whoever gave me the obsolete £1 coin, don't worry I'll change it somehow.... David Day Planner
